

NPInfusion
May 4, 2018 • 9am – 2:30pm
Le Meridien, Tampa

NPInfusion, the nonprofit industry's most up-to-date conference, marries new techniques and tools with established nonprofit leadership and fundraising methods.

Grassroots methods can bring tremendous value to established nonprofits - and startup organizations will have to deal with the same governance and donor retention issues as do larger, long-standing organizations. Let's learn from each other!

From startup to staying power is the theme of this high-energy event for nonprofit professionals of all levels, members of Boards of Directors, and students planning their entrance

into the nonprofit industry. Expected attendance is 100.
